

UMER FAROOQ

FULL STACK DEVELOPER

Professional Summary

Skilled full stack engineer. Good grasp of data structures and algorithms. Have worked with some cool tech stack that helps to create scalable, well-versed and modern web development technologies such as HTML, CSS, and JavaScript, as well as modern front-end frameworks such as React.Js. I have a youtube channel named AuditBlock and a GitHub account named Umer786277 where I teach and upload different tech project development material. A passionate learner, love computers and programming skills relevant to full stack development. Looking for the best opportunity.

EXPERIENCE

06/2022 - 08/2022

FULL STACK DEVELOPER INTERN

FALCON XOFT

As a full stack Django developer, I gained practical experience in both frontend and backend aspects of web development. Developed, coded, modified and debugged application programs of varying degree of complexity with full independence. Planned and engineered RESTful web services to manipulate dynamic datasets.

09/2022 - 02/2023

FULL STACK DJANGO DEVELOPER

AGRSOFT

I was responsible for designing, building, and maintaining websites and web-based applications. This may include tasks such as: Writing and testing code in languages such as HTML, CSS, and JavaScript. Developing and implementing website and application functionality Ensuring that websites and applications are responsive and work well on various devices. Debugging and fixing any issues that arise with websites and applications.
